## Tutoring Experience

I have been teaching chemistry for 19 years, working with students from various international backgrounds. My experience spans across IB, A-Level, and IGCSE curriculums, where I've helped students grasp complex concepts and succeed in their exams. Many of my students have gone on to prestigious universities, benefiting from the solid foundation built in our lessons.

In addition to teaching at the secondary level, I've also guided undergraduates through advanced chemistry topics such as organic chemistry and physical chemistry. My extensive tutoring experience has allowed me to adapt to different learning styles, helping students overcome their challenges and reach their full potential.
